The screenshot shows the DISH RESERVATION user interface. On the left is a dark sidebar with navigation options: Reservations, Menu, Guests, Feedback, Reports, Settings (expanded), Hours, Reservations, Tables/Seats, Offers, Notifications, Account, and Help. The main content area is titled 'My Establishment' and 'My Data'. Under 'Personal information', there are fields for Salutation (Please select), First name (Test Max), Last name (Trainer), and Login e-mail (training@hd.digital), with a SAVE button. The 'Export data' section is highlighted with an orange box and contains the text: 'You have the right to receive your data in a structured, commonly used and machine-readable format in order to transmit it to another controller.' Below this is the 'Export data' button, which is also highlighted with an orange box. The 'Delete account' section contains the text: 'To delete your DISH Reservation account, please log into DISH'. At the bottom right, there is a help icon (question mark in a circle) and a footer with links: FAQ, Terms of use, Imprint, and Data privacy. A small notification at the bottom left says 'Too many guests in house? Pause online reservations'.

Listo. Has completado el tutorial y ahora sabes cómo exportar tus datos.
