

Welcome to the app installation guide for your DISH POS device. In this tutorial, we show you how to download and install the DISH POS app.

How do I install the DISH POS app on my device (Tablet)

First, open a browser on your device and enter the IP address of your POS server (e.g. 192.168.178.10 followed by :8080/booq/webapp) into the URL field and press Enter. Note: It should look similar to this 192.168.178.10:8080/booq/webapp.

The download then will automatically start. Depending on your browser, you will receive a notification that the download was successful. Now initiate the installation by tapping on Open.
